Usage Guide

Charging

When the battery is running low, you will hear a prompt tone and the LED indicator will flash red. To charge, connect the Bryan speaker to the USB port of your computer via the provided USB charging cable, or directly using "Recharge" USB power adapter from Over-Ear or any AC 5V-1A power adapter.

- When charging: Red LED indicator light on.
- Fully charged: Red LED indicator light off.

Connect and Pair

Step 1: Press and hold the Power button for 4 seconds to turn on the speaker. The speaker will emit a prompt sound and a blue LED light will flash quickly to indicate that the speaker is in Bluetooth pairing mode.

Step 2: Open the Bluetooth menu on your device and activate the Bluetooth function.

Step 3: Select "Bryan" from the list of available Bluetooth devices (If system requires a password, enter "0000").

Step 4: Once paired, the speaker will emit a prompt sound and the blue indicator light will turn on.

FAQs and Solutions

Q. What should I do if the Bluetooth speaker does not power on.

A. Make sure the Bluetooth speaker has been fully charged.

Q. Bluetooth speaker is not paired with my device.

A. Try one of the following

1. Ensure the speaker is in pairing mode and try again.
2. Check if your Bluetooth device is supported by A2DP.
3. Your device may be out of range, move it closer and try again.

Q. The Speaker was on standby for a long time and is not able to boot.

A. The Battery has gone into protection mode, just recharge it before use.

Reset

If the speaker is unresponsive please use the Reset option located next to the AUX port. Using any toothpick or hard pin (please do not use overly sharp objects) press the reset button for 10 seconds.

Warranty

Bryan is covered for 12 months against any manufacturing defects. Warranty is applicable from date of purchase. Visit www.over-ear.co.uk for more information.
